### INCIDENTS IN HARLEM.

THE RAPID TRANSIT QUESTION-ST. AN. DREW'S CHURCH ELECTION.

The proposed bridge, however, is not changes to prevent noise of the trains from being heard in the auditorium.

The Rev. Dr. George R. Van De Water, the rector of St. Andrew's Protestant Episcopal Church, Fifth-ave, and One-hundred-and-twenty-seventh-st., has issued an appeal to his congregation asking, in view of the recent dissensions in the church, for a vote St. Andrew's has never had a recti who has had such a hold on the larger part of his congregation as Dr. Van De Water. But within a few weeks some influential members of the church have been dissatisfied with the election of wardens and vestrymen and have threatened at the coming election to place an opposition ticket in the field. Dr.

Van De Water says in his circular:

"The year past has been a most trying one to your rector, on whose head have been poured the rials of criticism as cruel and bitter as they are unjust and untrue. Throughout the trouble he has ndcavored to keep silent, to devote his time and nergies to the spiritual interests of the parish, to the saving of souls to which his life is consecrated and for which the church exists. But I cannot without greater grace from God, go on this next year nuless I have an expression of full and hearty con fidence from my people, so full indeed that there will not be any doubt about it, and that will be an answe from them that I have their love and esteem.

"The church to be successful must be in it clergy, vestry and congregation united and harmoni ous. To this end I ask you at the Easter election to come and cast your vote. The people have a right to vote for whom they please, but I believe that the election of the inclosed ticket will give me e vestry whose advice will be helpful."

TESTIFYING AGAINST THE FIREMEN.

AN INSURANCE MAN SAYS THE DEPARTMENT IS INEFFICIENT.

After an interval of several weeks the commission engaged in investigating the damaging allegations against the Fire Department, composed of A. E. Orr, E. B. Bartlett and John G. Jenkins, resumed its work yesterday in the police trial room of the Municipal Department Building. Herman Joerns, an Insurance adjuster for the Home Fire Insurance Company, testithat the Fire Department managed the fire in Howe's furniture store at Bedford-ave, and Fulton-st. in November of last year so that the loss was \$51,000 when it should not have been more than \$2,000, if the fire fad been properly handled. He severely criticised the work of the firemen and said that they broke needlessly glass windows worth several thousand dollars in the building and thus tended to increase the spread of the flames, which broke out it the basement. He declared that the way the glass was broken showed that the heat did not do it and said he could furnish the names of persons who saw the firemen break the glass. His witnesses were not

District Engineers Perry, McGroarty, Walsh and Mc-Guire and a number of foremen testified that the fire was properly managed and that the best methods were used to extinguish it. They declared that the amount of water used was needed to put out the smouldering fire in the cellar and prevent its breaking out again. All were positive in their denials that any of the plate glass windows were broken by the firemen.
